

ELECTRICITY WORX

Independent Connection Provider

**YOU NOW
HAVE
A CHOICE.**

028 2586 2771

electricityworx.com

We offer new connections to domestic, commercial and industrial premises, and renewable sites.

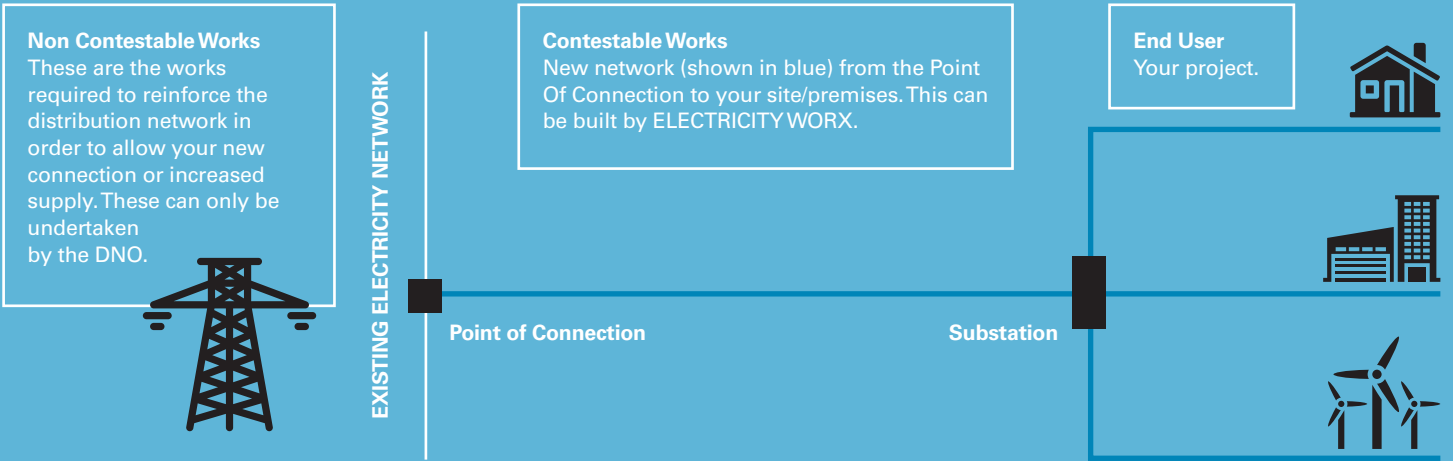

With the recent introduction of competition in connections in Northern Ireland, customers now have the option to have the majority of connection work, referred to as contestable work, carried out by a third party connection provider.

As a fully accredited Independent Connections Provider, Electricity Worx carry out full turnkey design and construction up to 110kv.

We take away the hassle and provide you with a dedicated Project Manager, ensuring you have one reliable point of contact, from initial design to the final connection helping guide you through the whole process.

Why Choose Us?

- Forward thinking 'can do' approach to resolving network solutions in exceptional timescales
- Free quick no-obligation quote
- Full Consultancy Service
- Dedicated Project Manager
- Flexible to suit your needs
